SINAMICS G120/G120C Screening Plates

The screening plate is designed to provide the correct and secure electrical grounding for all cables to and from the Inverter. For detailed information on the correct wiring of the Inverter, please refer to the relevant Getting Started Guide and Operating Instructions for your Inverter.

SINAMICS G120 Power Modules screening plates

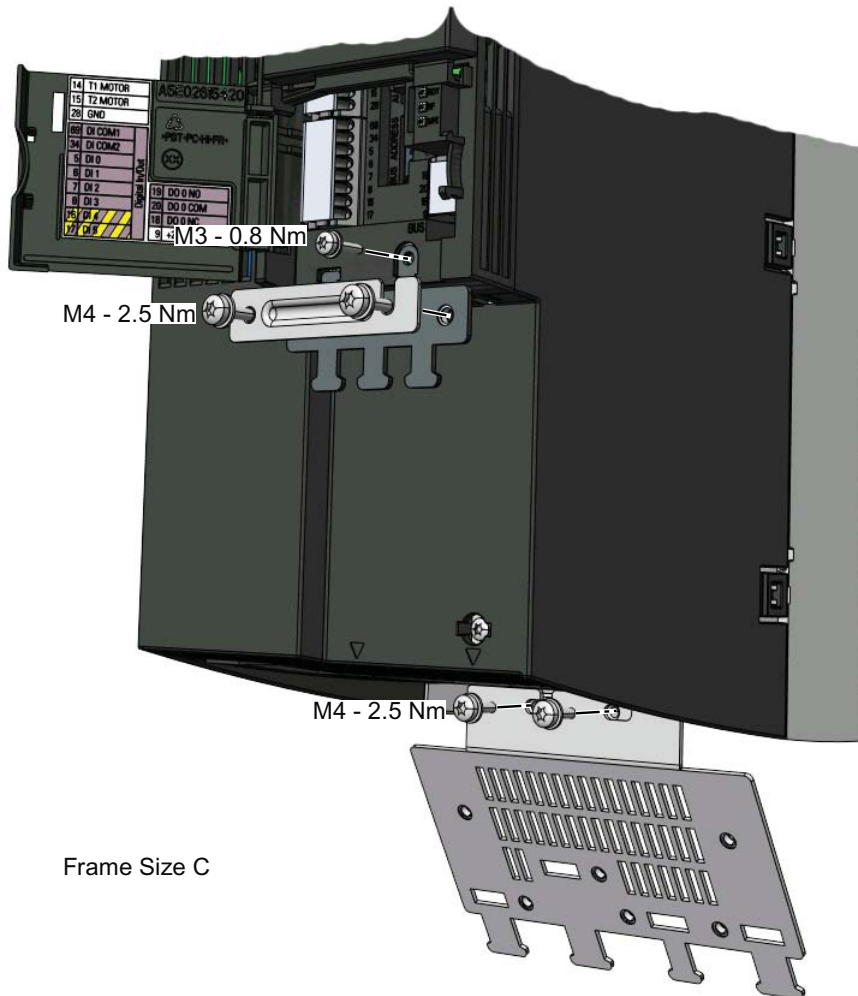

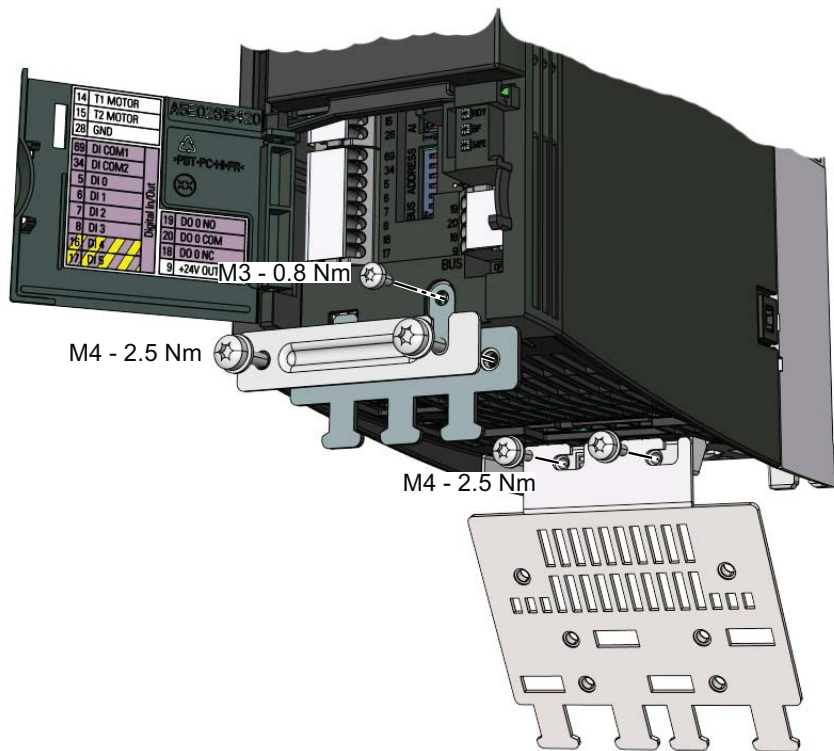

Push-through variants screening kit

Note: Frame Size A (FSA) is shown in this example - the fitting technique is the same for all Frame Sizes.

SINAMICS G120C Inverter screening plates

Frame Size A & B

Frame Size C
