Tubing cutter PAN-V0S
For flame-retardant PAN-V0 tubing

Note on materials:
RoHS-compliant

LABS (PWIS) conformity:
VDMA24364-B2-L

Colour: grey

Before the plastic tubing PAN-V0 can be inserted into the push-in fitting QS-V0, the tubing's PVC sheath must be cut by length X.
The integrated stop in the tubing cutter PAN-V0S ensures that the sheath is always cut to the correct length X. The blade design prevents damage to the inner polyamide tubing.

Pipe and tubing cutter ZRS

The pipe and tubing cutter ZRS is used for cutting to length plastic and nitrile rubber tubing with outside diameters of 2 to 20 mm, with or without textile insert. It is not suitable for tubing with metal sheath. It also has an integrated retaining clip to prevent unauthorised opening.

Note on materials:
RoHS-compliant
